LYLA HUANG | Singapore & Barcelona | lyla.huangyanling@gmail.com | lylahuang.com

SUMMARY

With over nine years of experience in marketing and advertising, Lyla is a skilled communicator and strategic problem solver. Her past work in agencies demonstrates her ability to craft compelling narratives, conceptualise campaigns, and collaborate cross-functionally. After completing her Master's in Human Interaction and AI, she seeks to bridge the science of tech and the art of communications to drive meaningful growth in the region.

CORE SKILLS

Narrative: Creative direction, storytelling, concept development, communications
Strategy: Problem framing, insight development, systems thinking, value proposition definition
Product & UX: Product thinking, interaction design, prototyping, UX exploration

GAP YEAR

Independent | September 2026 – present
AI Product Experimenter & Builder

- Designed & built *(re)route 1.0 & 2.0*: Conceptualised and deployed a web-based mobile platform focused on urban exploration, pivoting the product from a contextual walking map into an interactive, gamified "quest" system.
- Developed *snapp*: Built and launched a web-based photo-challenge app (akin to "Wordle for photos") using modern web frameworks, focusing on rapid prototyping and high-engagement user loops.
- Created custom tools: Engineered personal solutions like *PlanMyTrip* (an interactive itinerary builder) and *Job Hunter* (a custom web scraper featuring a programmatic scoring algorithm to evaluate roles).
- End-to-End GenAI Production: Directed and produced cinematic video sequences, imagery, and creative assets using advanced generative AI pipelines (Runway, Nanobabana, ElevenLabs, Mureka) for product storytelling and digital media.

PROFESSIONAL EXPERIENCE

Freelance | July 2022 – August 2025
Creative Strategist & Writer

- Developed and executed brand and messaging systems for clients in FMCG, government, and hospitality, successfully translating business problems into clear, market-ready creatives.
- Led alignment across cross-functional client and agency teams (strategy, creative, execution) to ensure integrated campaign delivery across digital platforms.
- Consulted on localised messaging needs, balancing global brand guidelines with local audience insights for effective campaign rollouts.

Google | October 2021 – June 2022
Digital Marketing Associate Trainee (App Ads, Creative Specialist)

- Reached over 133 SMEs across APAC, with scaled strategies and tailored consultations that resulted in greater ad performance and business growth for app clients.
- Unlocked incremental growth opportunities for the sales team through pitch decks and implementation roadmaps that encouraged experimentation and increased ad budgets.
- Collaborated with cross-functional teams on key gaming events, Think Games & Gaming Growth Lab, for Pakistan, effectively priming over 2000 developers for success globally.

BLKJ | February 2018 – September 2021
Writer (2018–2019) | Senior Writer (2019–2021)

- Drove significant user engagement and adoption for key brands (e.g., Scoot), doubling average social media engagement rates through culturally relevant and trendy content.
- Led a cross-functional creative team of eight to establish a scalable content pipeline, creating user-centric, social-first content for campaigns.
- Launched large-scale, high-impact campaigns that drove brand awareness and contributed to national agenda-setting for major Singaporean public and private sector initiatives (e.g., 'Made With Passion', COVID-19 drives).

Havas Media (Socialyse) | November 2015 – December 2017
Content and Community Specialist – Writer & Creator

- Built up a strong brand presence on social media for regional brands like Canon Asia, Pernod Ricard, and local giants like FairPrice through effective content strategies.
- Bolstered brand love amongst our target audience by engaging with hundreds of non-fans and fans each month, providing technical support and active community management for key clients in the region.
- **Standout Contribution:** Doubled the monthly retainer budget and increased following by ~4000% on Instagram for the team's largest client over 1-2 years.

EDUCATION

ELISAVA, Barcelona | September 2025 - July 2026
Master of Human Interaction and Artificial Intelligence

- Productising AI & user value: Conducted user research to separate genuine utility from "hype" and gimmicks, identifying where AI meaningfully augments daily human lives.
- Next-generation UI/UX Design: Explored "post-command" interfaces beyond the chatbot box, focusing on how to seamlessly integrate AI into existing systems and processes.
- System architecture & rapid evolution: Built a foundational understanding of evolving AI workflows and system architectures to design frontier-ready products.
- The AI communication problem: Analysed stakeholder and end-user communication strategies, evaluating the friction of technical transparency and whether "AI" should be explicitly surfaced in user-facing positioning.

National University of Singapore, Singapore | August 2011 – May 2015
Communication and New Media (Honours)
Class: Second Upper
